ABOUT PYROLYSIS UNIT

- Our company specializes in the treatment and production of waste rubber, waste oil, waste engine oil, and continuous carbonization furnaces. Guided by the philosophy of "eliminating black-and-white pollution and benefiting future generations," we actively promote a management spirit centered on "people-oriented values, focusing on personal cultivation; independent research and development, efficiency, and pragmatism." With meeting customer requirements as our ultimate goal, we pursue the integration of efficiency and development. We look forward to collaborating with you in the near future.

Model

| MODEL | PUTHL-1 | PUTHL-2 | PUTHL-3 | PUTHL-4 |
|---------------------------------------|----------------|----------------|----------------|----------------|
| Diameter(MM) | 800X1000 | 1000X1200 | 1200X1200 | 1500X1000 |
| Yield(KG/H) | 300 | 600 | 800 | 1000 |
| Liquefied gas burner | 5 | 6 | 9 | 12 |
| Carbonization furnace temperature(°C) | 350-850 | 350-850 | 350-850 | 350-850 |
| Fan | 15 | 22 | 30 | 35 |
| Main burner | 1 | 1 | 1 | 1 |
| Carbonization furnace main unit (KW) | 4 | 5.5 | 7.5 | 11.5 |
